

United Way of Douglas County

Community Partner Success Story:
Health Care Access Clinic provides health care and medication assistance services to uninsured and financially limited residents, targeting the Health goal of our community.

“I was first diagnosed with colon cancer in the late 1980's. Shortly afterwards I started coming to Health Care Access Clinic and in 2003 was diagnosed with endometrial cancer. The clinic was able to help me get a total hysterectomy. A few years later I was back again and this time was diagnosed with breast cancer. Again, HCAC was there to help get me a lumpectomy as well as radiation treatment. I currently have a medical card but I miss all the staff and cannot say enough about the excellent care I received when I was a patient. I work part-time and was able to keep working throughout my treatment. They have saved my life!”

A donation of \$5 per week provides clinic fees for 25 patients.
